

POLICE ORDER No. 95

Performance
of day
patrol/
rounds by
Superior
Police
Officers.

Police Manual-Rule 140 deals with performance of the night rounds by Superintendents, Assistant and Deputy Superintendents of Police. It is necessary that adequate attention should also be paid by Police Officers of all ranks to check day patrols as well. Visiting busy areas, checking duties of officers and men during day time will not only bring these officers into closer touch with the public but also will ensure greater vigilance and smartness in the subordinate ranks. Frequent checking of the patrols in the town areas should be ordered by the Superintendent of Police in the same manner as is done for night rounds under Police Manual Rule 140. Suitable amendment will be made in this rule in due course.
